

# Opportunity Zone Project

## Project Name:

**PulseWave Lawton, LLC**

### Name

Ed Sample

### Email

ed.sample@pulsewavesciences.com

### Organization

PulseWave Holdings, Inc.

### Describe the potential market/users for this project.

The market for products made from the hemp materials processed by PulseWave Technology includes; sustainable building materials (hempcrete), hemp-based paper products to replace wood-based products, hemp-based plastic products to replace petroleum based plastics, loss circulation material for oil drilling, biocomposites for automobile parts, and human consumable food products and pet food product and pet treats made from the hemp biomass ingredients.

### Phone Number

(214) 906-3641

### Describe any local incentives and/or developer initiatives.

We have meet with the Mayor and city leaders of Lawton, Oklahoma and have received a very positive response. We have also met with a number of businesses that we believe could benefit from our products. At this point we have not approached any entity with regard to tax incentives, grants or other benefits. We believe such things will be available but we are working to find the right Opportunity Zone investors prior to determining such opportunities.

### Project Type

Industrial

### Project Name

PulseWave Lawton, LLC

### Briefly describe the project.

PulseWave has a unique and proprietary technology that allows harvested hemp to be processed for two purposes; 1. To liberate the valuable CBD oil from the hemp for a variety of CBD based products, and; 2. Once the oil is liberated from the hemp, the remaining biomass material can be processed into a myriad of highly salable products. We know of no other technology that has the capability of processing the hemp material into such a wide variety of usable products.

PulseWave's Unique Natural Resonance Disintegration Technology. Validated by the U.S. Department of Energy and the U.S.D.A.

**Opportunity Zone ID**

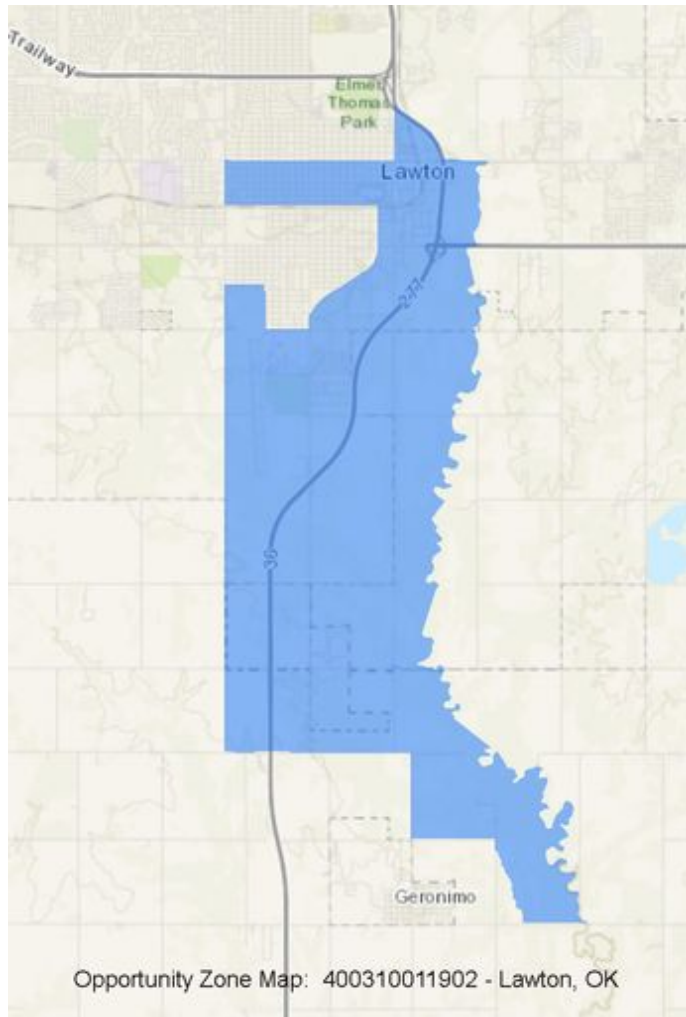

400310011902

**Project Address**

101 SE D Avenue, (proposed facility)  
Lawton, OK, 73501
