Disaster Damage:

As specified in the June 3, 2014 Federal Register Notice Vol. 79, No. 106, the State sustained multiple disasters occurring from 2011 to 2013. These disasters were far reaching throughout the fifty-seven (57) counties identified under the Presidential Disaster Declarations. Such disasters included; tornadoes, wildfires, flooding, straight-line winds, and winter snowstorms. Disaster related damage resulting from tornadoes (2013) and wildfires (2012) occurring in Cleveland and Creek counties respectively account for the majority of the disaster related damage. A Damage Assessment Report (August 6, 2013) covering the tornado disaster impact area appears as Appendix A in this Action Plan and contains a more detailed assessment of the Moore tornado event of 2013. This single disaster proved to be the most significant event of the Federal Register Notice time period. Since the initial assessment of the storms' impact, inquiries have been made to the State of Oklahoma Department of Emergency Management to update disaster impacts. However, the Department reported that there is no additional State disaster information available. Because several years have passed and vigorous steps have been taken toward recovery, the State determined that a survey was needed to update recovery efforts and determine the unmet needs still existing. As mentioned previously, CDBG_DR funds must be used to cover 'unmet' storm related disaster needs. Given these circumstances, the State prepared both mailed and emailed surveys to representatives of various units of general local governments (counties, cities, towns), HUD assisted housing, and LITHC housing located within the eligible disaster areas. US Census (American Community Survey) data was also examined as well to help better identify targeted groups which could possibly address the LMI requirement set forth in the Federal Register Notice. The following list includes the Presidential Disaster Declarations and eligible counties accounted for under the eligible declaration. The listing also denotes the incident period in which the disaster occurred. Recovery Needs:

A funding allocation was created as a result of several limiting factors and considerations. Some of these factors included Federal Register Notice CDBG-DR guidelines, damage analysis, surveys, US Census data, and of course the Action Plan

submission deadline to HUD. Considerations involving public input and especially the amount of available funding also restricted the overall scope of the program at this time. Unmet need exists in the areas of housing, infrastructure, resiliency / mitigation and planning. Data to determine the unmet need was compiled from unmet need requests provided by an ODOC unmet needs survey conducted from June 26, 2014 through August 8, 2014. Disaster Recovery notification letters were individually mailed to each of the fifty-seven (57) disaster eligible counties across the State. Disaster Recovery notification letters were also mailed to each of the State's eleven (11) Substate Planning Districts. An email database of approximately three-thousand (3,000) from ODOC's Community Developer newsletter was also utilized in conjunction with the ODOC disaster recovery website. Additionally, supplemental data from HUD's Oklahoma City Field Office and FEMA was also used. The unmet needs survey was targeted at the fifty-seven (57) Oklahoma counties and their inclusive municipalities which qualified under the 2011, 2012, and 2013 Presidential Disaster Declarations as specified in the Federal Register Notice. Below is a summary of the results from the survey contained in the ODOC disaster recovery notification letters. Please note that these survey results are the initial response to the inquiry of the State's unmet disaster needs. Because these unmet needs are based off simple requests and not substantiated by an official application, this listing DOES NOT reflect a final eligibility of such requested activities. The FINAL eligibility assessment will be conducted upon evaluation of an officially submitted Disaster Recovery application through the States OKGrants system. Overall Progress Narrative:

Quarter Ending October 30, 2021. The Oklahoma Department of Commerce (ODOC) received a monitoring report from HUD during this quarter reflecting that all previous findings have been addressed and cleared and that there were no new findings from the monitoring HUD staff conducted in June 2021. The ODOC staff has not performed any updates to the action plan or performance measures or any revisions toward the recommended cleanup of items mentioned in the monitoring visit. The ODOC staff is in need of technical assistance from HUD for the DRGR cleanup as the recommended next steps. Program funds drawn and expended totaled 65,205.42 in the activity of State 83.1 ODOC Admin PA R12 Ext for staff administration and related program costs. There were no post-closeout activities reported this quarter as the Oklahoma City Single-Family (SF) housing rehab activity did not receive any loan proceeds from the sale of properties this quarter. ODOC received the 2nd Quarter Internal Audit (IA) Report issued on August 18, 2021 and is available for review on the OKCommerce.gov website. The IA Report did not reflect any outstanding or additional comments or recommendations from previous reports necessary for ODOC to furnish a response.
