

**Substantial Amendment to the Consolidated Plan 2020 Action Plan
For the CARES Act ESG CV2 Funds**

The Oklahoma Department of Commerce has submitted changes to their State Emergency Solutions Grant Action Plan. The following response explains the change of allowing the City of Tulsa and the Oklahoma CoC to apply for ODOC's ESG-CV2 funding.

AP-30 Method of Distribution - 91.320(d)&(k)

Describe the state program addressed by the Method of Distribution.

ESG-CV2 – Due to local stakeholder input, the City of Tulsa and the City of Oklahoma City will be eligible to apply for ESG-CV2 funding. This will benefit the geographic areas the funds were originally intended for due to the transient populations that go from those geographic areas through the Cities of Tulsa and Oklahoma City. Extending ESG-CV2 availability to The City of Tulsa within the Tulsa County CoC and the Oklahoma City CoC will increase the areas within the state of Oklahoma that can prevent, prepare for, and respond to the coronavirus without taking away ESG-CV2 funding from the other CoCs.
