

# SITES PROGRAM

## Supporting Industrial Transformation & Economic Success

---

Oklahoma is working to proactively address statewide site infrastructure needs to meet the demand of existing businesses and companies in the Commerce and communities' pipeline. The SITES Program includes opportunities for communities to apply to receive unallocated dollars set aside for infrastructure improvement and industrial site development.

## Project Selection & Distribution of Unallocated PREP Funds

Oklahoma communities may apply to receive funds from the Progressing Rural Economic Prosperity (PREP Fund) for the creation of new industrial sites or to address infrastructure needs at existing sites. The PREP Fund was created in 2022 by the Oklahoma legislature.

## Program Eligibility

- ▶ Projects must be designed to create nationally marketable industrial sites.
- ▶ Priority will be given to projects that are “last mile” projects. In this context, “Last mile” projects will be considered the final piece of infrastructure for a site to have the water, sewer, electric, natural gas, and/or fiber capacities needed for industrial purposes and to close gaps in needs for the site to be nationally marketable.

**Total available funds: \$29.95 million**  
**Applications accepted March 20 - May 31, 2023**

**OKLAHOMA**  
**Commerce**
