

Guidance for Oklahoma's Open Up and Recover Safely Plan: Swimming Pools

- Reopened May 1, 2020

Sanitation & Disinfecting Guidelines

- You are encouraged to develop, implement, and maintain and revise a cleaning and disinfecting plan for your facility.

Enhanced Hygiene Considerations

- Ensure that access to handwashing/hand sanitizing facilities and supplies are available for employees and swimmers.
- Encourage employees and swimmers to use good hygiene including proper handwashing and observe respiratory etiquette.
- Consider messages to remind swimmers to prevent the spread of COVID-19. These messages may include suggestions to stay at home if you are sick or do not feel well, and what to do if you're sick or feel ill.

Social Distancing Guidelines

- It is at the discretion of management or local officials to determine when and if social distancing measures should be applied.
- Facility management should use their best judgement taking into account factors such as location and size of venue when determining the appropriate levels of social distancing and group size.

Please note this guidance is not comprehensive, it is intended to serve as a tool to help facility management establish general protocols encountered in various situations. Effective safety measures that protect employees and citizens are critical to a successful reopening of our great state. There are unique situations not covered here, and we rely on collaboration with our local officials, businesses and citizens using their best judgement during this unprecedented time. We must all take responsibility to protect those in our community. Thank you for doing your part to ensure the safety of all Oklahomans.
